

Regulatory / Law-Enforcement Reporting

from €800 · Quote range · scoped

Packaging findings for GDPR, NIS2 or DORA reporting, or a law-enforcement referral — in the form each recipient expects.

// DELIVERABLES

- Findings packaged for GDPR, NIS2 or DORA reporting, or a law-enforcement referral.
- Each package in the form the recipient expects.
- A regulator- or referral-grade evidence pack drawn from the engagement record.

// EXPECTED OUTCOMES

- Reporting obligations met in the format each authority requires.
- A referral pack that supports law-enforcement action.

// TIMELINE

Scoped to the reporting deadline of the relevant authority.

// METHOD OF ENGAGEMENT

Every case follows the same backbone, scoped to the matter.

PHASE_01 Triage · scoping

Confirm what's suspected, which evidence sources exist, the legal basis, and a fixed quote.

PHASE_02 Forensic acquisition

Bit-for-bit imaging of devices, mailboxes and logs — hashed (SHA-256), write-blocked. Chain of custody opens here.

PHASE_03 Analysis · reconstruction

Reconstruct what happened and when — separating what the evidence proves from what it merely suggests.

PHASE_04 Reporting · findings

A plain-language account for decision-makers plus an exhibit-referenced technical annex built to survive scrutiny.

PHASE_05 Testimony · referral

As needed: regulator packaging, law-enforcement referral, expert statements and courtroom testimony.

LEGAL

GDPR · NIS2 · DORA

REFERRAL
